

Functional & Performance Testing Template

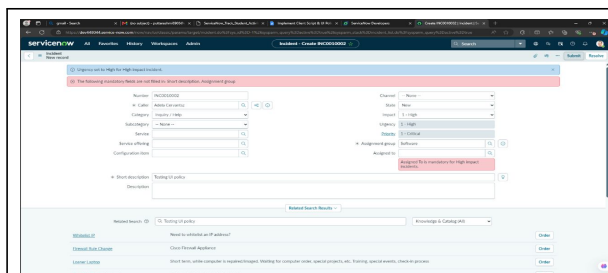

Model Performance Test

Date	1 October 2026
Team ID	SWTID-2026-4375
Project Name	Implement Client Script & UI Policy (Incident)
Maximum Marks	

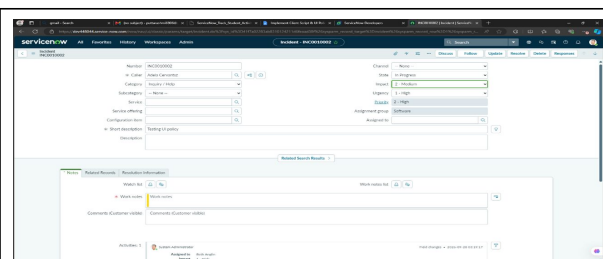

Test Scenarios & Results

Test Case ID	Scenario (What to test)	Test Steps (How to test)	Expected Result	Actual Result	Pass/Fail
FT-01	Text input validation – Assigned to / Assignment group fields	Set Impact to 1 - High, leave Assigned to empty and click Submit.	Error shown for the empty field; record not saved.	Save blocked; message “Assigned To is mandatory for High impact incidents.” shown. Assignment group marked mandatory.	Pass
FT-02	Value validation – Impact / Urgency values	Set Impact to 1 - High, then to 2 - Medium, and check Urgency.	High: Urgency read-only. Medium: Urgency editable.	High: Urgency 1 - High, read-only. Medium: Urgency editable again.	Pass
FT-03	Value generation – Urgency auto-set	Change Impact to 1 - High on a new incident.	Urgency is set to 1 - High and an info message appears.	Urgency changed to 1 - High automatically; incident saved as INC0010012 once Assigned to was filled.	Pass
FT-04	Client script check – list edit and form update	Double-click State in list; then change State on the form and click Update.	List edit blocked with alert; form update saved.	Alert shown and edit cancelled; INC0008111 updated to In Progress from the form.	Pass
PT-01	Response time test	Observe form and list while using each rule.	Form responds without noticeable delay.	No formal timing taken; form and list responded immediately in all runs.	Observed (not timed)
PT-02	API speed test	Not applicable – no external API; scripts run in the browser.	—	Not applicable.	N/A
PT-03	File upload load test	Not applicable – no file upload in this project.	—	Not applicable.	N/A

Screenshot evidence

FT-01: save blocked with error under Assigned to

FT-02: Impact 2 - Medium, Urgency editable

FT-04: alert on list edit of State

FT-04: State updated from the form (list view)
