

Demonstration of Proposed Features

Date	1 October 2026
Team ID	SWTID-2026-4375
Project Name	Implement Client Script & UI Policy (Incident)
Maximum Marks	1 Mark

Demonstration of Proposed Features:

This document lists the eight features planned for the Incident client-side controls and shows whether each was implemented and demonstrated. All eight are implemented and were demonstrated during testing; the figure numbers in the Remarks column refer to the output screenshots in the Project Documentation.

S.No	Feature Name	Description	Status (Implemented / Partial / Pending)	Demonstrated (Yes / No)	Remarks
1	High Impact Control UI Policy	UI Policy on the Incident table that applies when Impact is 1 - High, with Reverse if false enabled	Implemented	Yes	Shown in Figure 3
2	Mandatory Assignment Group	UI Policy Action that makes Assignment group mandatory for High impact incidents	Implemented	Yes	Shown in Figures 3 and 8
3	Read-only Urgency	UI Policy Action that makes Urgency read-only for High impact incidents	Implemented	Yes	Shown in Figures 4 and 8
4	Auto Set Urgency	onChange Client Script that sets Urgency to 1 - High when Impact is changed to High	Implemented	Yes	Script in Figure 5; result in Figure 8
5	Save Validation	onSubmit Client Script that blocks saving a High impact incident when Assigned to is empty	Implemented	Yes	Script in Figure 6; error in Figure 8; save in Figure 9
6	List Edit Blocking	onCellEdit Client Script that stops State from being changed in the list view	Implemented	Yes	Script in Figure 7; alert in Figure 11
7	Reverse Condition	Policy actions are undone when Impact is changed from High to Medium	Implemented	Yes	Shown in Figure 10
8	Form-based State Update	State can still be changed and saved from the Incident form	Implemented	Yes	Shown in Figures 12 and 13

Feature Implementation Summary:

Aspect	Details
Total Features Proposed	8
Total Features Implemented	8
Total Features Demonstrated	8
Overall Implementation Rate (%)	100% (8 of 8 features)
